

BOLD

2020 PAOLA NAVONE

DESIGN INSPIRATION

In an interesting and exciting deviation from her generally more 'loosely' upholstered furniture, world-renowned designer Paola Navone has gone bold with 'Bold'. The slight backward tilt in the armrest and the inward tapering back of this modular seating series are reminiscent of Art Deco club chairs. But this traditional vernacular is brought bang up-to-date by the gloriously soft and round outline, created by generous stuffing for optimum comfort.

LINTELOO

PAOLA NAVONE

The best business relationships are built on a personal connection. This is no different in the world of design. And a chance meeting between renowned designer Paola Navone and Jan Lintelo led to a friendship based on the love of food, cooking and travelling. 'This is the way I always work: I get inspiration and ideas from knowing and befriending people. I have a special connection with Lintelo, a personal click with both Jan and his partner Lars. You could almost call it a love affair. All the furniture I make with LINTELOO starts with meetings with Jan and Lars.' Graduated from Turin Polytechnic in 1973, Paola has always had a disregard for convention, which she developed during her time with the 'antidesign' rebels led by Mendini and Sottsass. 'It was crazy, what we did. Working like mad to produce the utterly useless,' she says. About the 'useless', we are not so sure. Nothing Paola designs could every be labelled 'useless', as far as Lintelo is concerned.

MAINTENANCE

All LINTELOO furniture has been made with love and care. Of course, we want you to enjoy it, for as long as possible. Proper maintenance will prolong its lifespan, which is why each piece of LINTELOO furniture comes with a maintenance instruction booklet, also available for download at lintelo.com Detailed information on care and cleaning, including the recommended products, can also be found at lintelo-care.nl

Upholstery: Maintenance of the upholstery obviously depends on your choice of fabric or leather. As a rule of thumb, fabric upholstery—especially when removable—is easier to clean in case of spots and spills than leather. On the other hand, leather will handle regular wear and tear better, in a sense that the odd sign of use only adds to its character.

Cushions: Again, the level of maintenance depends on your choice of filling. Down/feather-filled cushions require regular plumping up and airing. But you may prefer the firmer seating experience and hypoallergenic qualities that a 100% polyester filling provides.

Legs: The occasional wipe-down with a damp cloth is all it takes.
