2014 NIELS BENDTSEN

## DESIGN INSPIRATION

Miles Dewey Davis III was the epitome of 'cool'. Over the course of his five-decade career, this influential musician remained at the forefront of jazz: always fresh, always stylish, always stripping back unnecessary embellishments. Who better to inspire this elegant, pared-down 'Miles' series by Danish designer Niels Bendtsen? The armchair and matching footstool find the perfect accompaniment in the various sleek tables.

## DESIGNED BY NIELS BENDSTEN

'Quality is a funny concept. We tend to think of it as being associated with handcraft. But quality is also about your attitude to design', according to Danish-born and Canadian-bred designer Niels Bendtsen. At the tender young age of just 20, he opened his first retail store, Danet Interiors, and in 1981 founded Bensen, Niels' own manufacturing line, creating high-quality furniture that is both elegant and affordable. Bendtsen strives to design pieces that are intelligent: a harmony of design, manufacturing, and function that can and will adapt because of its timeless appeal. This is precisely why his long-standing relationship with Linteloo has been such a success. 'Linteloo embodies the cosy and joyful lifestyle of Jan and his partner Lars. Their furniture gives everyone a chance to experience their vision. With that thought in mind, I design pieces for their home, which means they are for everyone's home. I am pushing the boundaries to combine the strong lines I love so much with the utmost comfort.'

## MAINTENANCE

All LINTELOO furniture has been made with love and care. Of course, we want you to enjoy it, for as long as possible. Proper maintenance will prolong its lifespan, which is why each piece of LINTELOO furniture comes with a maintenance instruction booklet, also available for download at [linteloo.com](http://linteloo.com) Detailed information on care and cleaning, including the recommended products, can also be found at [linteloo-care.nl](http://linteloo-care.nl)

**Upholstery:** Maintenance of the upholstery obviously depends on your choice of fabric or leather. As a rule of thumb, fabric upholstery—especially when removable—is easier to clean in case of spots and spills than leather. On the other hand, leather will handle regular wear and tear better, in a sense that the odd sign of use only adds to its character.

**Cushions:** Again, the level of maintenance depends on your choice of filling. Down/feather-filled cushions require regular plumping up and airing. But you may prefer the firmer seating experience and hypoallergenic qualities that a 100% polyester filling provides.

**Legs:** The occasional wipe-down with a damp cloth is all it takes.

**Natural stone:** Despite being treated with a stain-resistant product, natural stone remains susceptible to staining. We recommend that you regularly apply an impregnation agent.
