

RELAX

2016 JAN DES BOUVRIE

DESIGN INSPIRATION

What's in a name? The ultimate in comfort, 'Relax' was designed by renowned Dutch designer Jan des Bouvrie, in 2016. Its slender, low shape is elegant and unobtrusive, while its loose back cushions can be easily rearranged to suit your needs: reading, lounging, or 'resting your eyes'. Order as many cushions as you like—your lifestyle, your choice. Hence, 'Relax' is the very apt name for this modular series with a wide range of elements, offering great versatility in terms of lay-out and use.

SHOWN MODEL IS EXECUTED IN FABRIC STELVIO 03

DESIGNED BY JAN DES BOUVRIE

Jan des Bouvrie (1942-2020) has often been credited with 'having painted the Netherlands white'. Born into a family of furniture retailers, Jan went to the Rietveld Academy for fine arts & design in Amsterdam and subsequently established a name for himself with his 1969 design of the 'Kubus' (Cube) sofa for furniture brand Gelderland, still in production today. When a client ordered one upholstered in white, it was like a light went on in Jan's mind. He became a strong advocate of white, clean lines and open spaces, at a time when the average Dutch interior was rather stuffy and traditional. Jan des Bouvrie quickly became a household name, because he turns his hand to everything, from furniture to industrial design, from ostensibly mundane objects to large-scale architectural projects. Many of his designs—and Jan himself—won numerous prestigious awards, and rightfully so. In 1993, he and his wife, Monique, set up 'Het Arsenaal', a leading interior and lifestyle store, which also houses Jan's studio. The two Jans—Te Lintelo and Des Bouvries—went back longer than both cared to remember and collaborated until Des Bouvrie's death, aged 78

SPECIFICATIONS

Body: Webbed metal frame with polyurethane foam, wrapped in hypoallergenic polyester fibre, 100% cotton inner cover.

Coupling system: The elements in any configuration are joined together by a steel coupling system

Legs: steel.

Seat cushions: polyurethane foam core in varying densities for optimum support and comfort, wrapped in a 100% cotton duvet filled with goose down and feathers, or a with a top layer of memory foam, wrapped in hypoallergenic polyester fibre, 100% cotton inner cover.

Back cushions: Goose down and feathers with polyester fibre, or hypoallergenic polyester fibre only, in a 100% inner cover.

Upholstery: Composition of fabrics depends on the customer's choice of upholstery. Leathers are either aniline or pigmented/sealed

Origin: Hand made in Italy

OPTIONS

Legs: Available in a chrome brushed, bronze or gun metal finish.

Upholstery: Fabric: removable cushion and body covers, available in all fabrics from the LINTELOO collection. Leather: removable cushion covers, fixed body cover, available in all leather from the LINTELOO collection. Customers can opt to supply their own choice of upholstery fabric/leather. Please note: leather upholstery requires more (visible) seams than fabric upholstery. For an impression of LINTELOO's fabrics and leathers, see 'Materials' at linteloo.com

Cushions: Available with goose down/feather or hypoallergenic fibre filling. Fabric-upholstered back cushions are reversible. Elements 162, 192, 222 and 252 cm can be ordered with a single seat cushion or two. For optimum versatility, back cushions are ordered separately. Please note: down/feather-filled cushions must be plumped up regularly. As seat cushions can be heavy a combination of polyester fibre-filled seat cushions and down/feather-filled back cushions is increasingly popular.

Special features: Full set of fabric replacement covers available at 50% of the current retail price of the piece of furniture. Leather replacement covers on request. For optimum versatility, both the longchair and dormeuse can also be ordered as 'stand-alone' pieces, which differ slightly from the modular longchair and dormeuse.

MAINTENANCE

All LINTELOO furniture has been made with lots of love and care. Of course, we want you to enjoy it, for as long as possible. Proper maintenance will prolong its lifespan, which is why each piece of LINTELOO furniture comes with a maintenance instruction booklet, also available for download at linteloo.com. Detailed information on care and cleaning, including the recommended products, can also be found at linteloo-care.nl.

Upholstery: Maintenance of the upholstery obviously depends on your choice of fabric or leather. As a rule of thumb, fabric upholstery—especially when removable—is easier to clean in case of spots and spills than leather. On the other hand, leather will handle regular wear and tear better, in a sense that the odd sign of use only adds to its character.

Cushions: Again, the level of maintenance depends on your choice of filling. Down/feather-filled cushions require regular plumping up and airing. But you may prefer the firmer seating experience and hypoallergenic qualities that a 100% polyester filling provides.

Legs: The occasional wipe-down with a damp cloth is all it takes.

WARRANTY

All LINTELOO sofas and chairs are backed by a 10-year warranty on the frame. Cushions, upholstery and all other LINTELOO products are backed by a 3-year warranty, with a depreciation of 1/3 each year. Please make sure you keep your invoice or receipt. Excluded from the warranty are:

■ Regular wear and tear, damages and discolouration of upholstery (fabric and/or leather).

■ Creasing, colour and structure variations and other irregularities, which are part of the natural characteristics of fabrics, leather and/or wood.

■ Complaints regarding fabrics and/or leathers which are not part of the standard LINTELOO collection (specially supplied fabrics and/or leathers).

■ Damages caused by improper use, inadequate or incorrect maintenance, or repairs carried out outside the scope of LINTELOO's responsibility. LINTELOO uses the Terms and Conditions of the Centrale Bond van Meubelfabrikanten, available at www.linteloo.com.

If you have any questions, please contact your LINTELOO dealer or LINTELOO's customer service department.
