

FLORIAN

2018 SJOERD VROONLAND

DESIGN INSPIRATION

Just one single mould is necessary to steam bend the various plywood elements of the low or high-backed 'Florian' lounge chair, as well as the matching footstool. It is the perfect example of Sjoerd Vroonland's practical knowledge of the furniture making process, as well as his innovative take on furniture design.

LINTELOO

DESIGNED BY SJOERD VROONLAND

Sjoerd Vroonland (1985) studied at the Wood and Furniture College in Rotterdam and also graduated from ArtEZ Academy, specializing in product design. Today, Vroonland runs his own label from his atelier in Amsterdam. His innovative products are inspired by classic designs and are created using materials, techniques and shapes that we are all familiar with. From the archetypal saddle to the antique clothespin, Vroonland uses the best features of time-honoured design and finds new ways to apply them, combining contrasting materials. Instead of hiding all the 'technical' details, the designer focuses on the beauty of structure and construction: the materials are uncompromised and the line of work can be clearly seen. The result is a pure and poetic dialogue between craft, innovation and modern-day living.

MAINTENANCE

All LINTELOO furniture has been made with love and care. Of course, we want you to enjoy it, for as long as possible. Proper maintenance will prolong its lifespan, which is why each piece of LINTELOO furniture comes with a maintenance instruction booklet, also available for download at linteloo.com Detailed information on care and cleaning, including the recommended products, can also be found at linteloo-care.nl

Upholstery: Maintenance of the upholstery obviously depends on your choice of fabric or leather. As a rule of thumb, fabric upholstery—especially when removable—is easier to clean in case of spots and spills than leather. On the other hand, leather will handle regular wear and tear better, in a sense that the odd sign of use only adds to its character.

Cushions: Again, the level of maintenance depends on your choice of filling. Down/feather-filled cushions require regular plumping up and airing. But you may prefer the firmer seating experience and hypoallergenic qualities that a 100% polyester filling provides.

Legs: The occasional wipe-down with a damp cloth is all it takes.
