

FEATURES

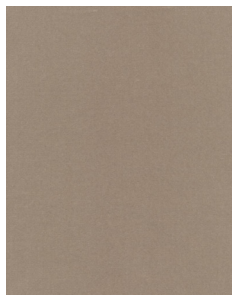

COMPOSITION	100% COTTON
WIDTH	138 CM
WEIGHT	540 G/LBM
ABRASION	40.000 MARTINDALE
COLOUR FASTNESS	ISO 3-5 DEP. ON COLOUR
CLEANING	DRY CLEANING

DESCRIPTION

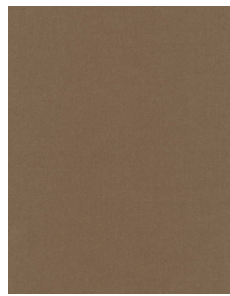

Velour fabrics owe their luxurious appeal to a unique weaving process. The fabric catches the light beautifully, because the tiny fibres jut out in all directions. This does however mean that indentations will quickly become visible, since the fibres will be flattened by sitting on them. Velour is also highly sensitive to moisture. The fibres will get stuck together, which will subsequently look like a 'stain'.

Velour stoffen danken hun rijke uitstraling aan een bijzonder weefproces. De stof vangt het licht heel mooi, omdat de kleine vezels alle kanten op staan. Dit betekent echter wel dat indrukkingen sneller zichtbaar zijn, omdat die vezels platgedrukt worden wanneer u erop gaat zitten. Velour is ook zeer gevoelig voor vocht. De vezels zullen dan aan elkaar plakken en dit oogt vervolgens als een 'vlek'.
